Evidences that Traders Intend to Use Money Freely.

(By International News Service.) New York, July 7.—That traders in-tend to use money freely on the mar-ket was made evident today. The railly which began on Friday was continued during today's session. Some specialties made material gains, with the railroads showing impressively strong. Most of the buying was short covering, but this was due to a belief that prices had reached a level that would attract investors.

The strength of the railroads was due to the announcement by the In-terstate Commerce Commission that it had undertaken a readjustment of rates in central freight territory.

An attack was made on General Motors by the same interests that have been raiding the motor issues for a week or more. The stock yielded a point and then railied four points. Chandler was another motor that railied greatly. United States Steel is believed to have earned fully a 75 per cent rate for the June outerer Lackcent rate for the June quarter, Lackawanna earnings are estimated at 70

per cent for the quarter.

Stockholders of companies that have earned nothing or had deficits for the period of 1911-12-13, but which are now, owing to the war, making large profits, are disturbed over the excess profit fax. There are companies in which practically the entire carnings will be subject to the excess profit tax at the highest rate.

Special Correspondent of The Washington Herald. New York, July 7.—The red tape that hampers a normal life in this metropolis is appalling. It is come to such a pass that a man cannot wrestle with a Zoo buffalo without being interfered with in some way. his friend and brother lariat twirler. Sid Bullock, and in trying to amuse a couple of pleasant chaps they met in the Bronx their entire day was ruined.
